

More efficient alternatives

- Smaller
- Faster
- More Capacity

Multi-product Harvest

Improve efficiency: integrated system

Low density

Improve efficiency: Harwarders

- Several designs
- Reduced handling
- Low-impact

Farm-tractor adaptations

Biomass Transport

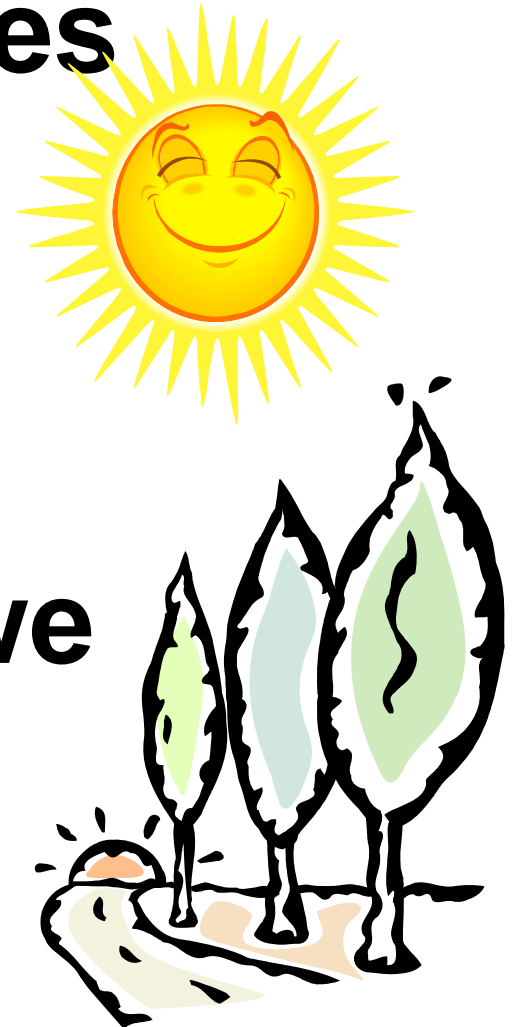

New System

Future Opportunities

**If biomass is an
opportunity for
forestry, what do we
need to do now?**

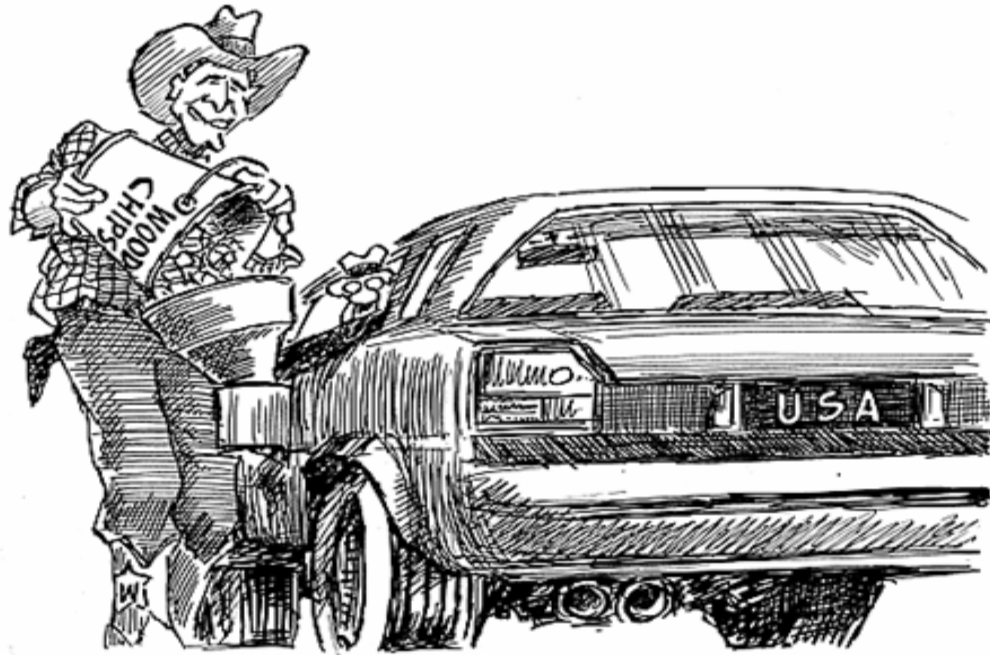

Some ideas.....

- Embrace the biobased revolution and the biomass economy! *Try it, you might like it!*
- Level the renewable playing field...*use wood!*
Don't be a silent sector – speak up & act!
- Enhance the public-private partnerships; –
Be collaborative, accelerate results!
- Accelerate development of information and the deployment of science and technology!
Push your state, professional groups; support demos and workshops, etc.
